LION SUB-15 Sub-frame Profiles for Panels NEW

Profile bonds with VHB or similar to alu, ACP, acrylic, etc. Stiffens the panel and aids hanging. Panel floats 15mm off the wall. Lion push-in corners make assembly easy. Key **9469**

into Search on our website.

LION Panel Hanging Plates NEW

Steel plates with hanger bridge and instant-grab adhesive. For hanging graphic panels on di-bond, acp, alu etc. Key **9482W** or see p.129.

Come and say hello to Jill, Joe and Martin on our booth at WCAF

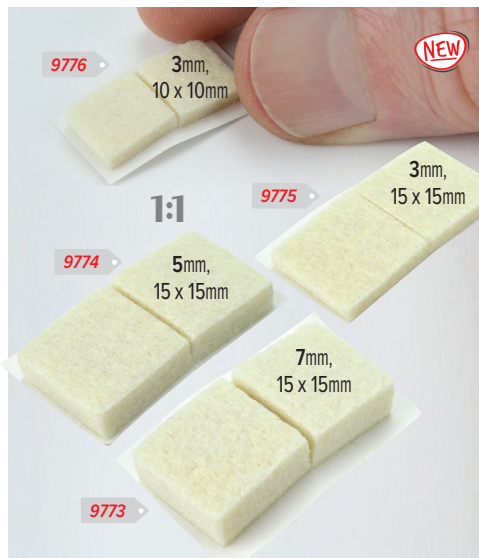

LION Perlon Guide NEW

When fitted to frames on hanging systems, they will not angle forwards so much. Key **9474**

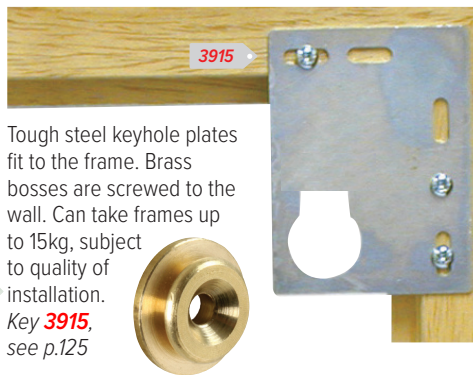

LION Bumpers in Polyfibre Felt NEW

Un-dyed polyfibre felt bumpers, 3mm, 5mm or 7mm thick. In pairs on a backing paper, so easy to peel and stick. Key **9773**.

LION Heavy-duty Keyhole Hangers NEW

Tough steel keyhole plates fit to the frame. Brass bosses are screwed to the wall. Can take frames up to 15kg, subject to quality of installation. Key **3915**, see p.125

LION CWH Square Sawtooth NEW

Best alternative to wire, yet. Fit in pairs and frame hangs on two hooks, pins or screws in wall. Key **6925**, see p.127

LION TiN Edge Matt Cutter Blades NEW

Super hard titanium nitride coated edge cuts smoother, lasts much longer. Key **7443**, see p.27

SpringLock Safe & Secure Hanging NEW

Safe and secure hanging of frames and mirrors. Locks onto almost any size of screws in the wall. Key **2954** or see p.153.

Safety Hanger NEW

Fit two on the corners of the frame, and they wiggle onto two screws in the wall. Remove only by wiggling again. Key **9630**, see p.137

LION Safety Hook Heavy-duty NEW

The restraining clip allows the wire to slide in, but resists accidental or deliberate removal. Takes 15kg/30lb. Key **9487**, see p.15
